The Tigers Two (haven't been able to find anything about them)

400	Tigers Two	*They Call Her Flame/Soho*	*Vee Jay 705 (US)*	*1965*

Track 1 is pure pop and there is no piano. Track 2 is a very funky song with heavy guitar, bass and drums. As if it was a completely different band. There is also a very nice sax solo. No piano and no trace of Leon.
